The Railroading Merit Badge Workshop is a one-day program that affords Scouts the opportunity to earn the merit badge by participating in six different activity stations.

Participation will be limited to the first 300 Scouts and 100 adults. The Railroading Merit Badge Workshop is open to all Scouting America Scouts and adult leaders. Cub Scouts are welcome to participate, in which case, activities can be applied toward the completion of other awards but will not count for the Railroading Merit Badge.

This is the only Railroading Merit Badge Workshop that is offered throughout the year.
